# ARC-LEGAL-NOTICE-2026 | Version v1.3.0-exec | STATUS: FROZEN
## Statutory Authorship & Corporate Provenance Statement
### Anchor: A-77-DELTA-SHIELD-LOCKED | Effective: Sep 01, 2026
```

LEGAL ATTRIBUTION NOTICE

STATUTORY AUTHORSHIP & CORPORATE PROVENANCE STATEMENT

Corporate Entity: Arcstone Adaptive Science Systems, Inc. (Delaware PBC)
Copyright Year: 2026
Primary Architect: Jesse Tuohy (JT)
System Anchor Target: Master Substrate Phase 7 Hardware Baseline
Cryptographic Synchronization: A-77-DELTA-SHIELD-LOCKED
Baseline Release Tag: v1.3.0-exec

1. CORPORATE INTELLECTUAL PROPERTY NOTICE

Arcstone Computational Substrate. Copyright (c) 2026 Arcstone Adaptive Science Systems, Inc. and its contributors.

This repository contains downstream reference implementations and public demonstration components developed by Arcstone Adaptive Science Systems, Inc. The core scientific

frameworks, formal specifications, and underlying mathematical invariants are authored by the Principal Invariant Architect (JT).

The computational structures, validation schemas, and system specifications compiled within this repository substrate constitute proprietary engineering configurations protected under sovereign industrial trade secret guidelines, statutory copyright records, and multi-jurisdictional patent protections.

2. NOTICES AND COMPLIANCE ACKNOWLEDGMENTS

For the avoidance of doubt, notice is hereby given that:

- Core upstream architectures, private control-plane matrices, and internal system registries are maintained outside this distribution layer.
- This distribution grants no rights, licenses, or title modifications regarding U.S. Provisional Patent Application Serial No. 63/980,937 or candidate post-provisional inventions tracked within private corporate records.

Independent deployment architectures utilizing Path A Open Core components must retain this notice in original un-mutated form across all distributed software data fragments or mechatronic cell instances. No downstream manager, neural compiler, or operational firm may delete authorship identifiers or obfuscate tracking lineages.

3. THIRD-PARTY DEPENDENCY NOTICES

This software utilizes the following baseline environment libraries under permissive redistribution frameworks:

- TypeScript Compiler and Runtime Engine: Licensed under the Apache License 2.0.
- Node.js Runtime: Licensed under the MIT License and V8 Engine dependencies.

All derivative works, downstream forks, and open-source implementations must preserve this attribution notice intact within their distribution roots.

4. ZERO RUNTIME OPERATIONAL LIABILITY DECLARATION

The structural specifications contained inside this downstream distribution layer are issued on an "As-Is" framework, carrying zero implicit warranties or functional guarantees. Arcstone Adaptive Science Systems, Inc. assumes zero downstream corporate liability for real-time edge processing faults, network tracking drift overages, or physical actuator collisions occurring inside independent downstream industrial substrates.
